Pattern Direction

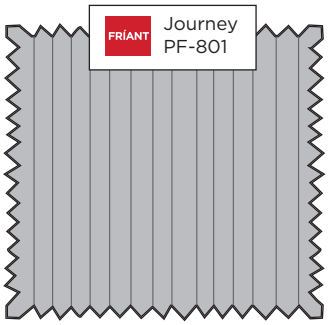

- Fabric direction is not always determined by the way the pattern is shown on memo sample.
- Certain product construction and sizes require fabric to be applied only Directionally or Non-Directionally.
- Some products have fabric applied either Directionally or Non-Directionally. (Upcharges may apply on some products, see price books for details).
- Please refer to this Fabric Direction Guide for specific pattern application defaults on all of our products.
- Our Customer Service Team is happy to answer any questions regarding fabric direction.

COM Form

FRIANT | ALL WORKSTYLES WELCOME

Date: _____

Customer's Own Material (COM) Form

For testing of new COM fabrics and application directions on previously approved fabrics
ONLY ONE FABRIC PER FORM

☐ Testing (Must be submitted prior to order submission)

☐ To indicate direction for order application (Must be submitted along with PO to orders@friant.com)

Directions for COM Testing

1. Attach 2.5 yards of the fabric to this form. (If testing on more than one product, attach 2.5 yards of fabric per product.)
2. Forward the completed test form and test fabric to the address below:
   Friant & Associates
   Attn Fabric Department
   1980 West Ave 140th, San Leandro, CA 94577
3. Provide Customer Service Representative with tracking for test fabric.
4. Please allow 5 business days (from receipt of Sample by Friant) for testing and notification of written approval by your Customer Service Representative.

Additional Notes for COM Order Application

1. Leadtime does not begin until the COM fabric is approved and the COM form / tracking number are provided to Customer Service Representative.
2. Contact Customer Service Representative for yardage required.
3. **Contact Customer Service Representative to confirm the Friant Plant the actual order fabric should be sent to.**

Laminate Grain Direction Guide

- Refer to this guide for default laminate grain direction.
- If any items require alternative grain directions, please contact Customs for assistance
- Some products will have a random grain direction, as noted in the following guide. If a specific grain direction is needed for these items, please contact Customs for assistance.
- For all edge banding, grain direction will run along the length of the edge band. See image below:
