THE ULTIMATE IN PLUG & PLAY CONFERENCING

Meeting set up has never been simpler. Friant's innovative inset trough holds voice, data, and electrical outlets that keep cables organized and out of sight for an uncluttered surface conducive to focus and planning. The trough has a brushed opening and the capacity for enough voice/data and electrical wiring to power up each seat at the table. Additional cable storage space in bases.

Beneath Mesa's beauty is an ingenious design — power trough and bases that store and organize cables for a complete plug and play experience

Trough Intelligence
Friant's innovative trough organizes voice, data, and electrical cables with separate raceways for power and data.

Custom without cost
With three table shapes, a dozen edge finishes and multiple base finish options, each Mesa table can be designed with a unique aesthetic. Mesa marries beauty and functionality while remaining at a competitive price point.
