OVERVIEW

Research within today's office has clearly indicated that changing the position of the worker during the day has a positive effect on workers comfort, well-being and productivity.

Friant MY-HITE adjustable tables were designed to promote adaptable workspaces that reduce discomfort by providing the ability of the user to sit or stand, adjusting their workstations at the touch of a button.

Friant MY-HITE adjustable tables integrate seamlessly within any Friant systems solution as well as private office applications.
