FUNC.

Contract furniture doesn't have to be stuffy and uncreative. We know it can be stylish and modern and comfortable too. So we started making our own and never looked back.

BUNJI

Bunji is conscious of space and sound. Hear what you want and see what you want. Truly a unique solution that ships flat and assembles quickly without tools. Minimal packaging materials and installation costs. Bunji is saving all of that power and energy for you. Designed to encourage user control space division, it's about what makes you feel comfy. Made from the highest quality P.E.T. to reduce sounds in collaborative environments, Bunji, with its rotating vertical louvers and universal ceiling mounts for ceiling heights up to 10', is designed to encourage user space control division to maximum capacity.

DESIGNER PAUL JAMES

Paul James is an award winning designer and inventor with a reputation for both right and left-brain insight. He entered college to study engineering and emerged with degrees in math and economics. A graduate degree in industrial design lead to leadership positions for several A list furniture companies. In 2002 he opened his own consultancy in Minneapolis specializing in product design and new venture start-ups. His process is equal parts head and hand, CAD and crayon, coffee and cocktail. Whether designing furniture, outdoor gear, or parametric fabrication systems, James' mantra is reason in every function and art in every detail.

AVAILABLE COLOURS AND FINISHES

Bunji is constructed from the highest quality polythylene terephthalate or P.E.T. An ideal material for reducing ambient noise and sound within noisy environments.

Bunji is available with light or dark wood vertical supports and bases. A wood colour selection must be made when ordering.
