WHERE FUN AND FUNCTION CONNECT

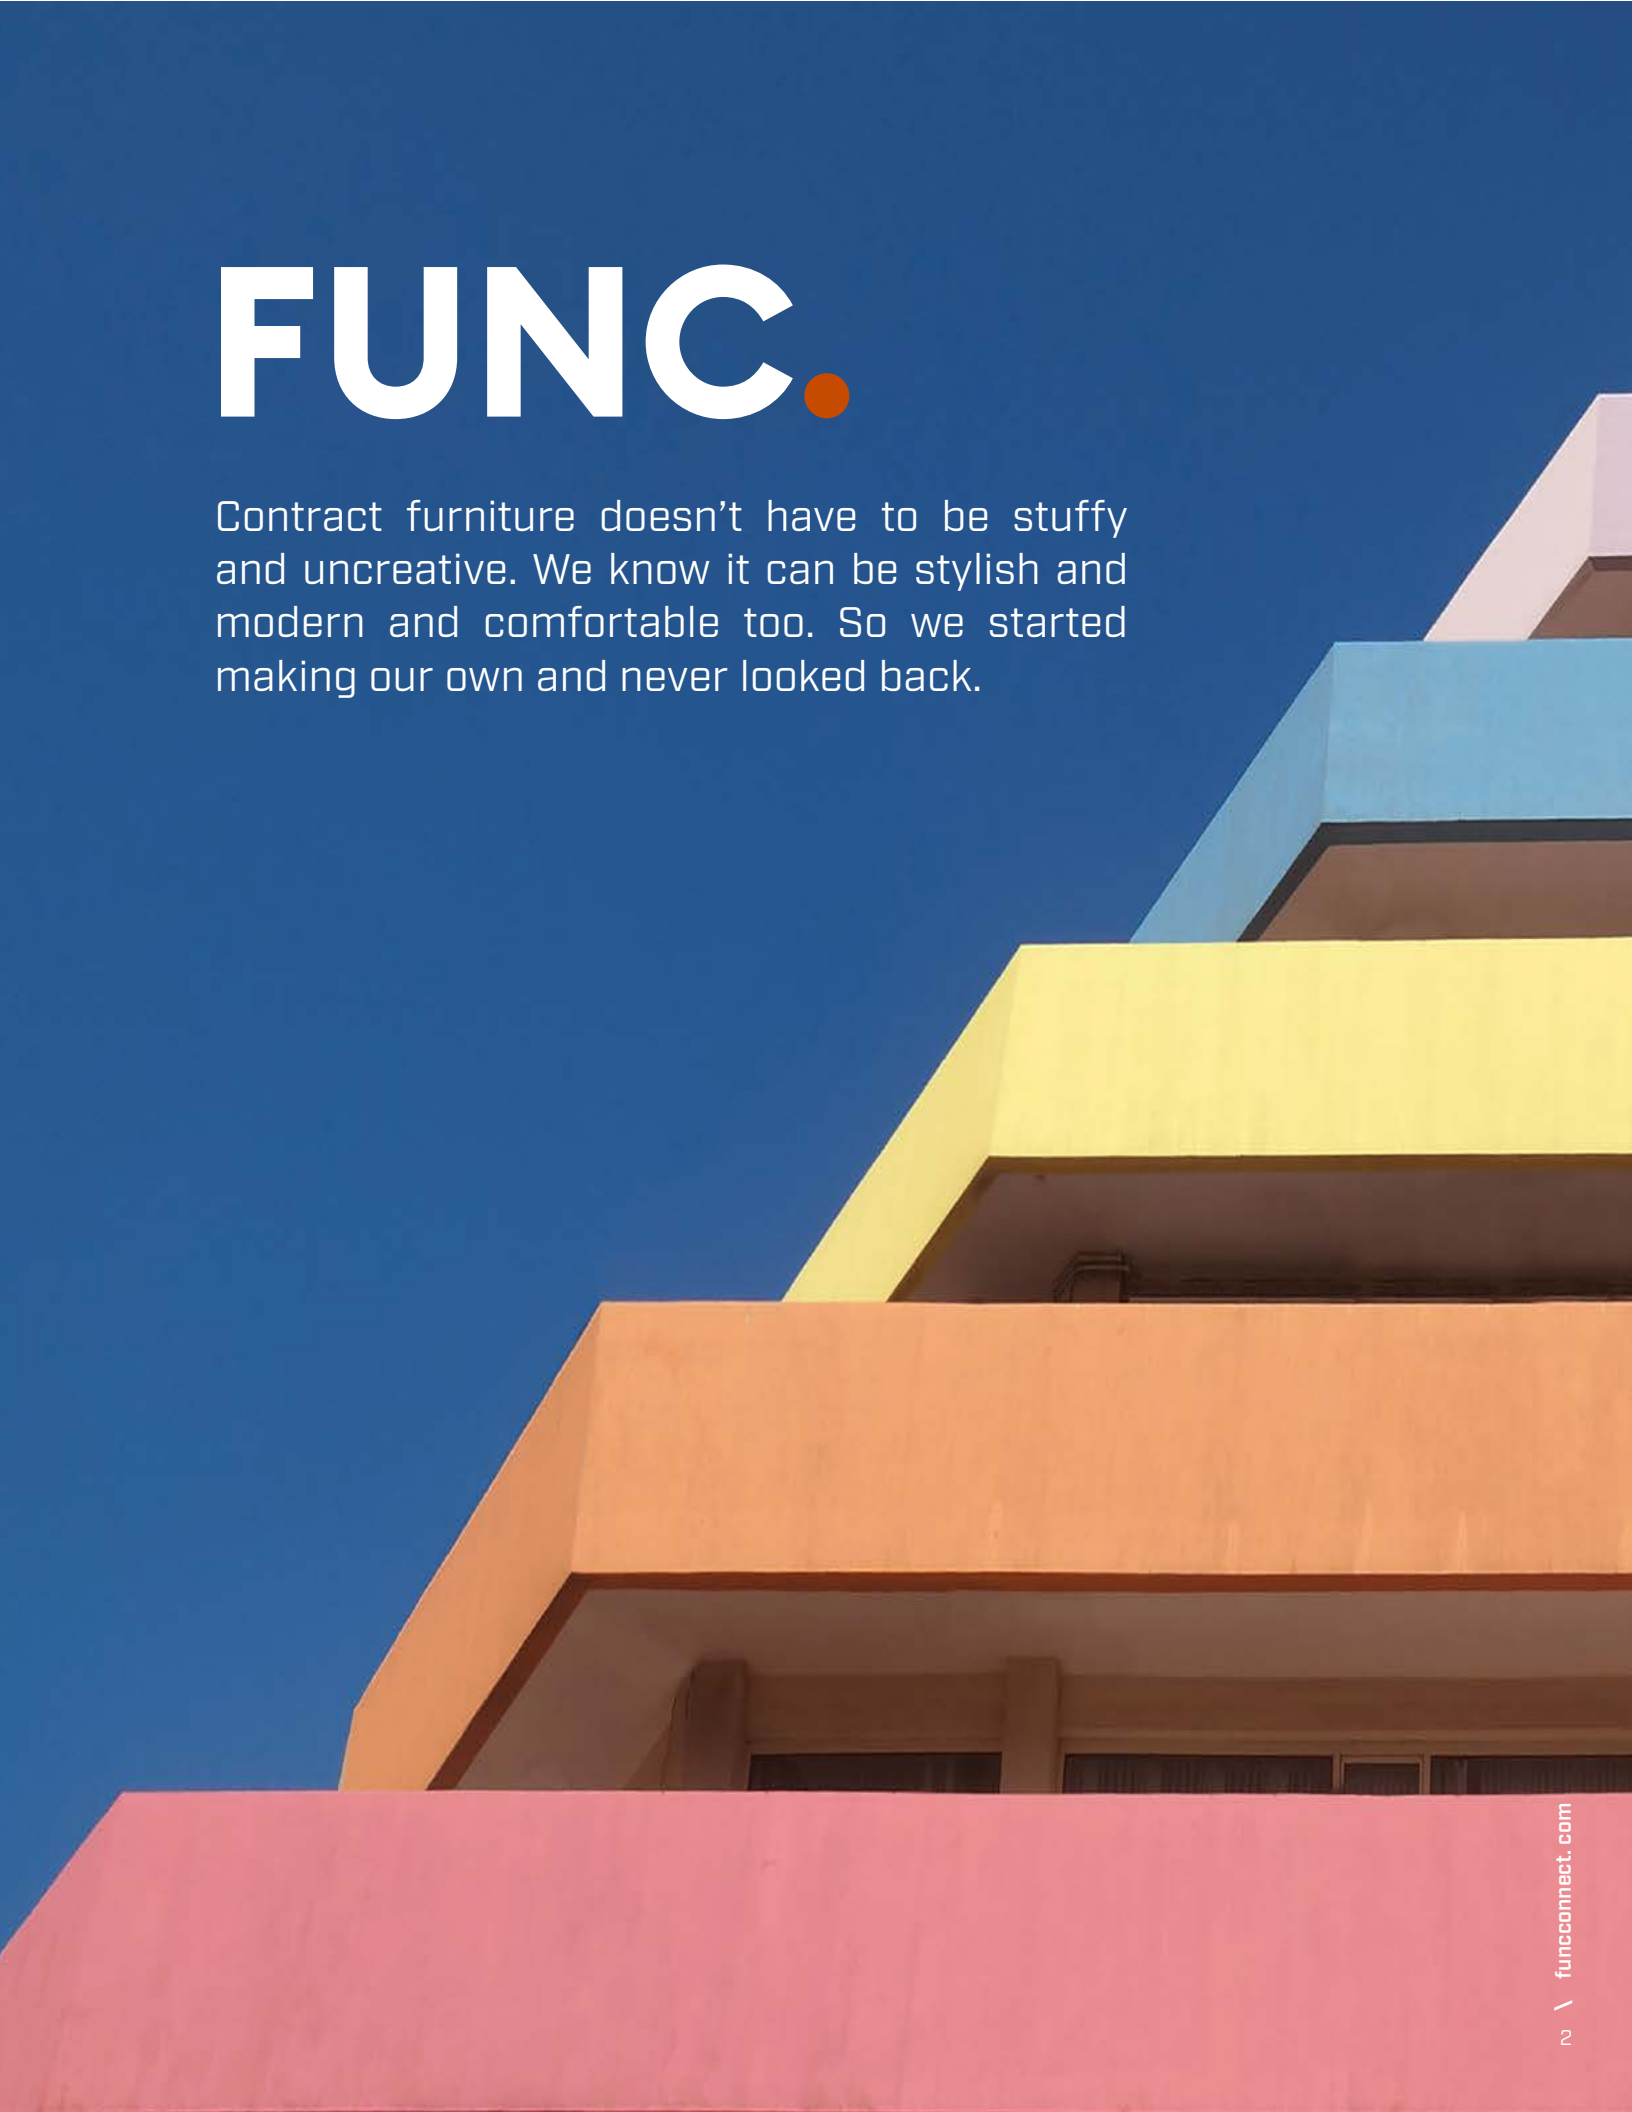

LINGO

PRIVACY HOODS

FUNC.

Contract furniture doesn't have to be stuffy and uncreative. We know it can be stylish and modern and comfortable too. So we started making our own and never looked back.

FUNC.

LINGO

It's cozy, for starters. Constructed from the highest quality polyethylene terephthalate (we just call it P.E.T.), Lingo is designed to reduce ambient sounds in noisy environments. Convenient, short term private conversations will finally be what they should be—you in your own world, bending sound to your will. Lightweight design, toolless assembly, visually unique yet still functional, Lingo belongs in collaborative environments with you.

DESIGNER PAUL JAMES

Paul James is an award winning designer and inventor with a reputation for both right and left-brain insight. He entered college to study engineering and emerged with degrees in math and economics. A graduate degree in industrial design lead to leadership positions for several A list furniture companies. In 2002 he opened his own consultancy in Minneapolis specializing in product design and new venture start-ups. His process is equal parts head and hand, CAD and crayon, coffee and cocktail. Whether designing furniture, outdoor gear, or parametric fabrication systems, James' mantra is reason in every function and art in every detail.

AVAILABLE COLORS AND FINISHES

Lingo is constructed from the highest quality polythylene terephthalate or P.E.T. An ideal material for reducing ambient noise and sound within noisy environments.

PRIVACY HOODS

Protective but not smothering. Made from materials that reduce ambient sounds, the Lingo privacy hood is a spacious and safe haven designed for short term privacy. Make noise without hearing others. Make calls to whoever you want. Make faces. It's yours to do what you want with. With toolless assembly and lightweight design that attaches to interior walls, Lingo presents visual clarity without sacrificing function.
