MALLEE

FLOOR AND DESK SCREENS

Modern, flexible spaces.

A creative vibe that encourages people to focus and share ideas.

As designers, creating a functionally sound, aesthetically stunning space is always the goal, but it may not always be easy finding the right products that offer both. That's where FUNC comes in. The idea behind FUNC is simple enough: attractive solutions that define and appropriately divide spaces while reducing visual and acoustic distractions. But our team knows that this simple idea comes with a series of complexities, such as scale, form, utility, functionality, affordability, and the list goes on.

MALLEE

It's about opening up. Warm welcomes in open plan settings. It's not everyone's forte but it's certainly Mallee's, with floor and desk screens that humbly do their thing so that you can do yours. Creative environments work best when users have flexibility and order, and Mallee's bendable, wrap-around designs give maximum privacy control. Team spaces, personal spaces—you call the shots and shape your space and your time how you want. Place Mallee's modern design anywhere and prepare for sound-reduction that's so quiet, you never even have to think about it.

DESIGNER PAUL JAMES

Paul James is an award winning designer and inventor with a reputation for both right and left-brain insight. He entered college to study engineering and emerged with degrees in math and economics. A graduate degree in industrial design lead to leadership positions for several A list furniture companies. In 2002 he opened his own consultancy in Minneapolis specializing in product design and new venture start-ups. His process is equal parts head and hand, CAD and crayon, coffee and cocktail. Whether designing furniture, outdoor gear, or parametric fabrication systems, James' mantra is reason in every function and art in every detail.

AVAILABLE COLORS AND FINISHES

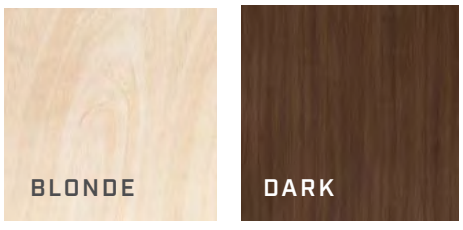

COLORS

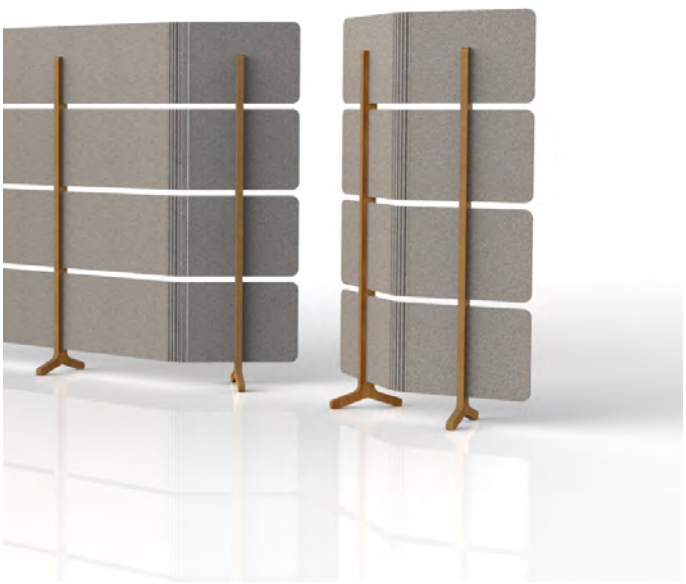

Mallee is constructed from the highest quality polythylene terephthalate or P.E.T. An ideal material for reducing ambient noise and sound within noisy environments.

Mallee is available with light or dark wood vertical supports and bases. A wood color selection must be made when ordering.

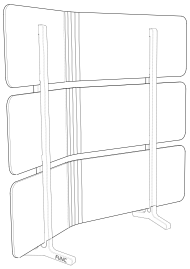

WOOD FINISHES

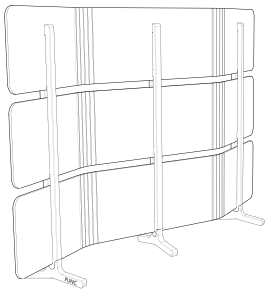

FREESTANDING SCREENS

Be the center of your own universe. Mallee is a user-controlled floor screen designed for privacy, flexibility, and ease-of-use. Wood vertical posts provide a substantive look and feel while a lightweight design offers shapeshifting fun. Users can easily and quickly form a “U,” “S,” or in-line shapes for various levels of personal and team privacy. Shape your day with Mallee’s floor screen. Your workflow will thank you.

DESK SCREENS

Size doesn't matter, or it does. That depends on you, and however you want to use Mallee, a desk screen that will situate you snugly in whatever place you want to be. We're talking creativity. Flexibility. Ultimate ease-of-use. Mallee does not require a single attachment for your desk or work surface. It simply rests wherever you place it for fast and convenient installation. The integrated accessories tray within the wood base design give this user-designed beauty a touch of understated complexity.

CLEANING & DISINFECTING

They say cleanliness is next to godliness. We understand the need to feel safe and secure within a crowded environment. That's why FUNC endorses cleaning practices that protect our customers. Vacuum or use compressed air to remove dust that may collect over time. The use of a diluted bleach solution (one cup of bleach to five gallons of water) may be used to clean the felt surfaces of FUNC. Our solutions are not only visually compelling, they are also incredibly durable.
