CLEANING & DISINFECTING

They say cleanliness is next to godliness. We understand the need to feel safe and secure within a crowded environment. That's why FUNC endorses cleaning practices that protect our customers. Vacuum or use compressed air to remove dust that may collect over time. The use of a diluted bleach solution (one cup of bleach to five gallons of water) may be used to clean the felt surfaces of FUNC. Our solutions are not only visually compelling, they are also incredibly durable.
