Gathering Space for Any Environment

Serenade gathering tables encourage collaboration and interaction by facilitating a space for togetherness. From libraries and media labs to classrooms and conference rooms to dormitories and cafés, durable Serenade gathering tables support any community environment.

Designed for Versatility

This versatile surface solution offers a range of comprehensive design options. Specify up to three contrasting laminate options – surface, legs, stringer/modesty panel – to create a design unique to your space. A "stringer" or partial modesty panel comes standard; you may select an optional full-length modesty panel instead. Choose from standard (29") or café (42") heights and single- or double-sided depths.

Optimized for Functionality

Table surface and legs feature 2"-thick construction, enabling clean wire management under the table top and within the legs. Optional bag hooks allow sub-surface storage to maximize surface and leg room. On café-height tables, optional footrests support users who choose to stand while also adding some visual interest to the table.
