PRODUCT SPECIFICATIONS

Versa® Standard Chair

April 2020

TECHNICAL SPECIFICATIONS

Standard Frame
Legs of 7/8" O.D. by 13-gauge tubular steel. "Kick-back" rear legs on four-leg model increases structural integrity and adds to stability. Side members of 7/8" O.D. by 13-gauge tubular steel. Cross tube members of 7/8" O.D. by 14-gauge tubular steel. Legs are joined to side members by brazing; all other joints are robotically welded.

Standard Tube End Caps
Molded plastic. The end cap will match the frame color. With chrome frames, the end cap will be black.

Armrests
Molded nylon or chrome-plated cast aluminum.

Glides
4-Leg Chairs
Glides are pressed into the bottom of the leg tubes. Three glide options are available; felt, plastic, and steel. Felt and plastic glides have a swivel base and have easy-on/easy-off replaceable caps, which makes field replacement easy and efficient (plastic & felt caps are interchangeable). Steel glides have a non-swivel base and do not have interchangeable caps. No color options are available for glides.

4-Leg Wallsaver Chairs
Only available with steel glides. Rear glides have a swivel base, front glides have a non-swivel base. No color options are available for glides.

Upholstered Seat
Seat is .30" thick molded polypropylene. Fastened to frame with four #10-24 screws through T-nuts embedded in the seat. Urethane foam 1 1/8" thick glued to seat. Molded polypropylene seat shroud assembled between seat and frame.

Upholstered Round Back
Two-piece contoured construction with rounded top. Inner back is molded polypropylene with 3/4" thick urethane foam. Outer back is molded polypropylene with 1/4" thick urethane foam. Three spring steel clips attach the inner and outer backs together. The back assembly is attached to the frame with four 1/4-20 screws.

Upholstered Square Back
Two-piece contoured construction with squared-off top. Inner back is 7/16" thick multi-ply gum wood veneer with 1" thick urethane foam. Outer back is 3/16" thick multi-ply gum wood veneer with 1/4" thick urethane foam. Three spring steel scissor clips attach the inner and outer backs together. The back assembly is attached to the frame with four 1/4-20 screws.

Wood Seat and Backrest
Backs (round & square) and seats are constructed of hard maple multi-ply veneer contoured with "A Grade" faces. Backs are .48" thick and seats are .38" thick. Backs are attached to the frame with four 1/4-20 screws and cap nuts that are pressed into the wood backs. Seats are attached to the frame with four #10-24 screws and cap nuts that are pressed into the wood seats. Cap nut heads are low profile with gloss black finish. Molded polypropylene seat shroud is assembled between seat and frame. Optional plastic stack bumpers (four) are available to protect seats when stacked. Caution needs to be used when stacking.

TECHNICAL SPECIFICATIONS

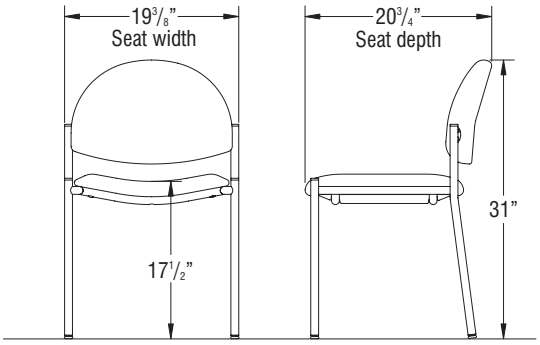

Frame Finishes
Frames are finished in either baked-on electrostatically-applied epoxy powder-coat paint, or bright nickel-chrome plated finish.

Standard Transport Dolly
Tubular steel frame, black powder-coated finish. Four 5" swivel wheels.

Stacking Vinyl, Polyurethane, and Imitation Leather Upholstered Chairs
It is recommended that chairs to be stacked be covered in material other than vinyl, polyurethane, or imitation leather as an impression in the seat may result. KI does not warrant the effects of stacking on stock or C.O.M. vinyl, polyurethane, or imitation leather upholstery.
