PEAK PERFORMANCE

People sit, but rarely sit still. KI task seating has ergonomic features that support you as you move: adjustable lumbar, 4D arms, synchrotilt and counter balance mechanisms.

Not all chairs are created equal - nor should they be. Depending on your needs, KI provides all levels of functionality in task seating from simple to advanced functions.

At KI, we take strength and durability seriously. Several task chairs are warranted for 24/7 usage and all have weight ratings of at least 300 pounds.

ADVANCED FUNCTION

The average person spends 3 to 4 hours per day at work or school sitting in front of a computer. The right task chair can ensure comfort and improved circulation for high productivity.

KI offers a range of task chairs that address proper sitting. With options such as lumbar support, adjustable seat depth, back tilt, armrest height and depth adjustment and more, we can help you find the ideal task chair. KI also offers ergonomic task chairs at various price points, ensuring you stay within your budget.

24/7

Round-the-clock facilities need task chairs that withstand the rigors of constant use. KI provides task seating with enduring comfort 24/7.

- Altus Fabric
- Altus Mesh
- Dōni
- FourC
- Pilot Big and Tall
- Strive

KI's 24/7 task chairs are ideal in healthcare, public safety and call center facilities and offer sizing adjustments to accommodate multiple users. 15-year warranty for 24/7 applications.

SIMPLE FUNCTION

Sometimes simple is all you need. KI's simple function task chairs provide subtle, yet stable support in styles for any workspace.

These chairs are truly responsive - encouraging changes in posture and position, enabling collaboration and promoting the juggling of multiple tasks.

Fewer controls and smaller scale make them simple to use and simple to move.

Recommended for touch-down applications.
