Disassembly Instructions

Lightline Architectural Wall Panel

Material Type: A . Steel B. Aluminum C. Glass

All fasteners not explicitly tagged are Material Type A: Steel

Procedure:

1. Remove the screws and nuts holding the top clamping rail halves together and remove the rails from the glass.
2. Unscrew the jack post nut and remove the floor channel.
3. Remove the screws holding the lower clamp angles together and remove the angles, the glide housings and the center tube.

General Notes:

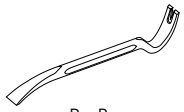

1. Disassembly time: 10-15 minutes
2. This procedure assumes basic familiarity with hand tools and furniture terminology: no specialized training is required
3. All materials removed and disassembled shall be sorted and segregated with like materials and disposed of or recycled according to recycling availability or waste acceptance
4. For items to be recycled, refer to KI's End of Life Recycling Matrix and KI's End of Life Recovery Options Matrix, available at www.ki.com
