STANDARD DOOR HARDWARE
Architectural Walls

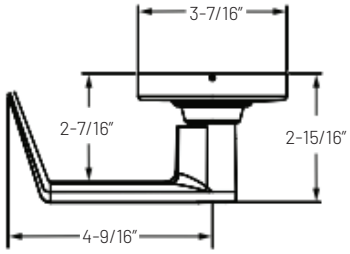

June 2024

Most finishes listed are either 626 Satin Chrome or 630 Satin Stainless finish. Other finishes may be available in the same hardware types/configurations but are subject to additional costs and lead times. Change in finish may also require longer lead times for the door frame and door leaf, as certain components may require painting or additional engineering drawing updates. Consult Wall customer service to confirm costs and lead times.
