CABINET and EDGEBAND COLORS

neocase™

Neocase offers a wide variety of contemporary finishes for cabinets and worksurfaces. Our standard case laminates are listed below. Our PVC edgebands for cases, fronts and tops match these standard laminates. Standard laminates from the major manufacturers such as Wilsonart, Pionite, Formica or Nevamar, are available for worksurfaces. When a non-standard laminate is selected, you must still select a standard edgeband. Metal cabinet bases are offered in black powder coat or stainless steel.

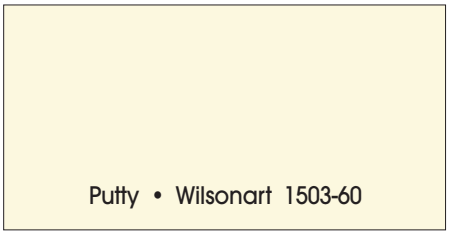

Fusion Maple • Wilsonart 7909-60

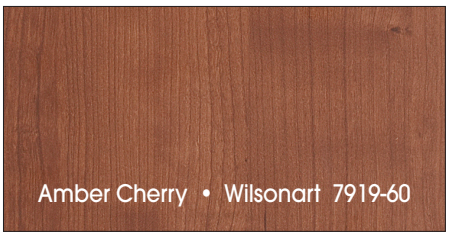

The finishes shown are reproduced as accurately as fine printing techniques permit and are for representation only. For critical color matching, please contact customer service for actual samples.
