modular casework

innovation

GROUPE LACASSE

Innovation in workspace design and utilization takes many forms.

Welcome to Neocase: a new way to look at bringing people, resources and workspaces together.

Neocase products offer a no-compromise blend of value, style and durability. It's the preferred solution for organizations looking to make wise, long-term investments in their facilities and their people.

Neocase modular casework is 100% reconfigurable, making it the superior alternative to built-in millwork. In addition to lower ownership and maintenance costs, Neocase offers the most environmentally responsible solution available. For healthcare, laboratory, educational and commercial facilities, Neocase is the smartest possible investment in workspace utilization.

The Smart Choice

It is rare to find one solution that has it all, but Neocase is that solution: engineered to provide decades of durable performance, Neocase offers the greatest possible value in workspace furnishings. And when it comes to customer service, our team is your dedicated partner throughout the planning, design and implementation process.

From assistance with casework selection and space planning, to final installation and service, our expert team of designers, project managers, dealers and representatives work closely with you to assure a successful outcome to every project.

MODULARITY

Born modular, Neocase products can be easily moved, reconfigured and adapted to changing facilities without the disruptive tear-outs associated with built-in millwork.

PERFORMANCE

Designed for intensive-use environments, Neocase products stand the test of time, year after year, and are backed by our limited lifetime warranty.

VALUE

The long life and accelerated cost recovery of Neocase modular casework make your initial investment last longer and reduce your ongoing maintenance costs.

SUSTAINABILITY

Built for re-use, and manufactured from low-emitting, recycled materials, Neocase is an environmentally responsible solution.

CUSTOMER EXPERIENCE

Renowned as a responsive, customer-driven team, we offer concierge-level service at every phase of a project, from concept to completion.

In today’s do-more-with-less economy, Neocase is a smart investment in casework planning, design and utilization.

Neocase is built to withstand the rigors of intensive use in healthcare environments.

Healthcare

Our modular casework functions like furniture. Its removal or re-configuration is non-invasive, requiring few specialized measures to protect at-risk patient populations in hospitals. It offers durability far greater than built-in millwork, and is manufactured with easy-to-clean materials, sealed edges and other infection-control features.

Applications within healthcare environments include: laboratory, pharmacy, emergency and operating areas, as well as nurses stations, patient rooms, procedure and examination areas, offices and other staff areas.

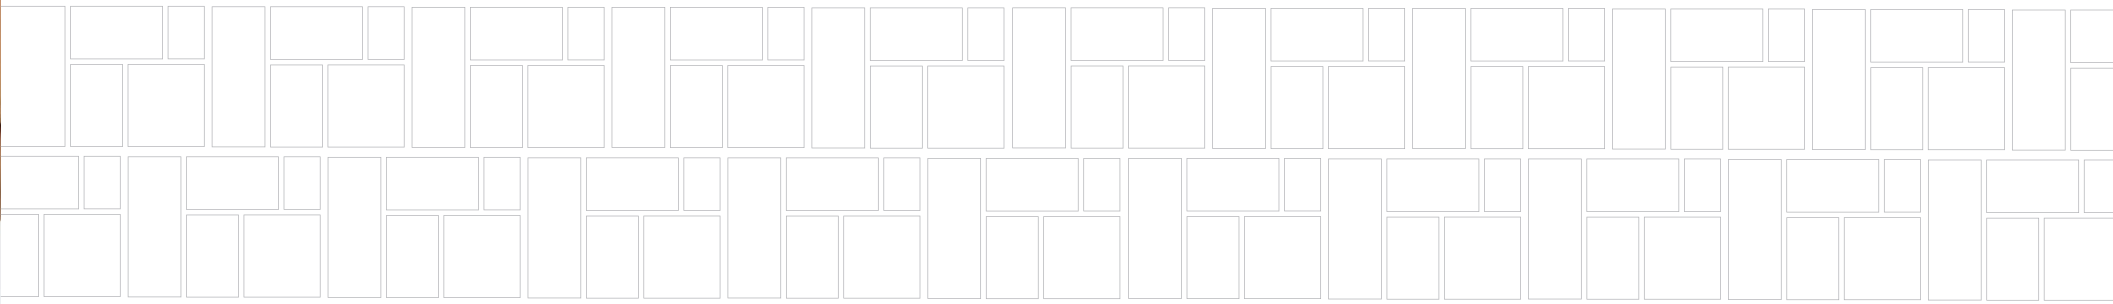

Laboratory

Neocase products are engineered for the evolving processes and the demanding, day-to-day use of busy laboratories. We engineer and custom-configure our products around your facility's specialized equipment and unique workflows. We work with you to identify the best work surfaces and components to ensure long-term, intensive use that will stand up to harsh chemicals or contaminants.

Neocase offers the perfect blend of lifetime durability and easy reconfiguration for evolving laboratory environments.

Intelligent engineering, sleek design and precise fit for great workspaces.

Commercial

For commercial applications, Neocase gives you the variety and attention to detail you expect from a leading modular casework brand. The customization of Neocase modular casework offers unlimited possibilities for making the most of new workspaces and reconfiguring existing ones.

Whether furnishing a mailroom, breakroom, copy center, reception area, private office or any other commercial workspace, Neocase is the attractive, durable solution.

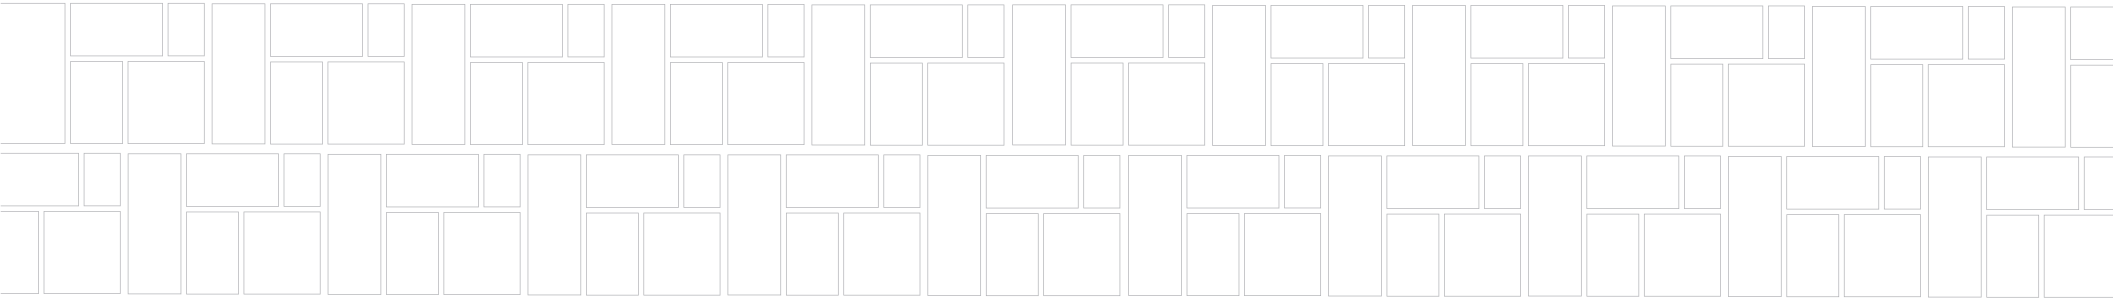

Education

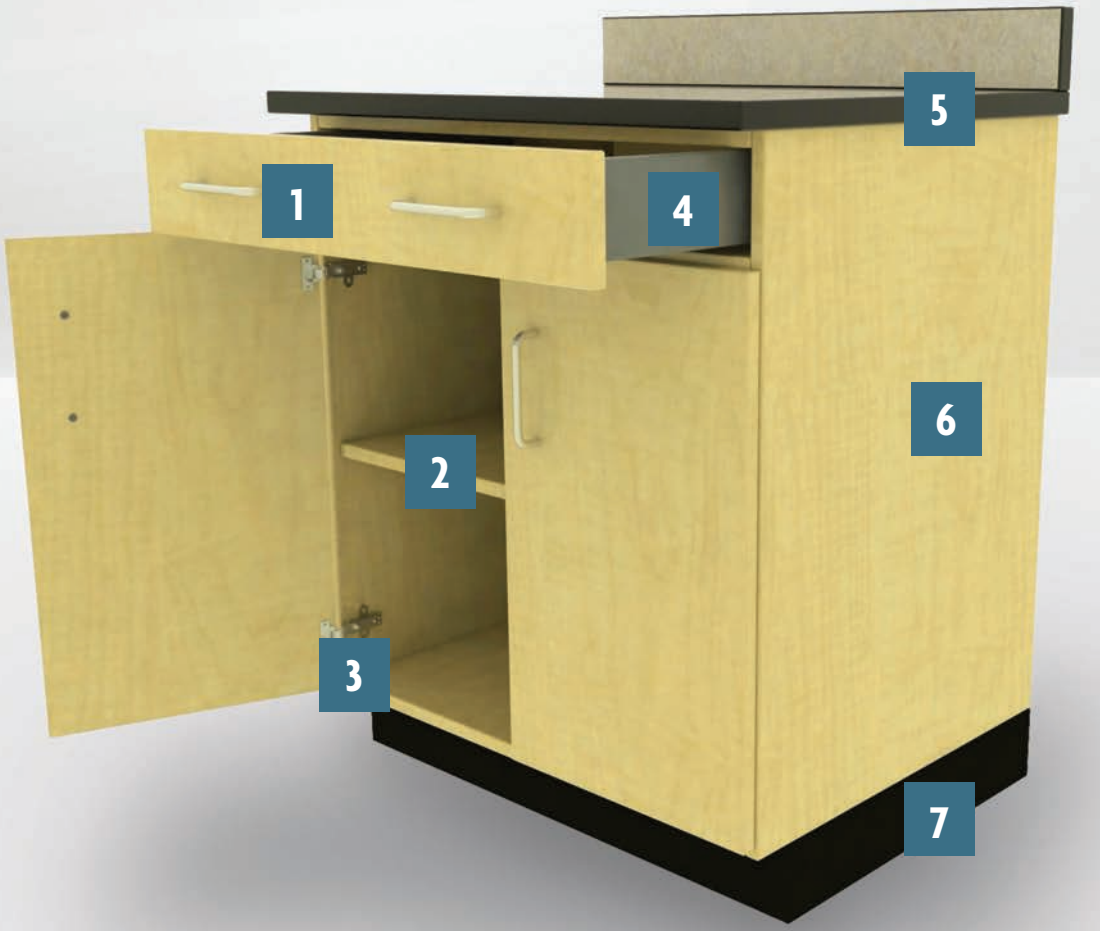

Neocase quality and durability enable schools, training centers and universities to make the most of their infrastructure budgets. Neocase modularity allows for maximum flexibility in initial design and future reconfigurations. This allows you to respond quickly to the frequent and inevitable changes in classroom and workspace utilization.

From elementary grades to higher education, every learning area and workspace is enhanced by Neocase functionality, quality and reconfigurability.

Construction Features

Neocase products are the best-built in the world, backed by a limited lifetime warranty. Engineered and manufactured to exact specifications, Neocase modular casework is built to provide decades of functionality and endure the rigors of intensive-use environments.

1 PULLS Neocase offers six standard pulls, with many other options available for special order. Pulls are 5" wide, and a minimum of 10 mm in diameter.

2 SHELVING Neocase shelving is sturdy and highly adaptable. Shelves are adjustable in 1¼" increments.

3 HINGES Neocase offers two hinge options: a concealed hinge and an exposed knuckle hinge. Both options provide years of dependable use and are covered by Neocase's limited lifetime warranty.

4 DRAWERS Choose from two different drawer body styles: standard drawers and Airmatic soft-close drawers.

5 WORKSURFACES Neocase offers a wide variety of worksurfaces and backsplashes, including: laminate, solid surface, epoxy, phenolic resin and stainless steel tops.

6 CONSTRUCTION Cabinets are available in plastic laminate, powder coated steel, stainless steel and laminate case with thermofoil fronts.

7 BASES Choose from three base cabinet options: laminate, powder-coated steel, or stainless steel, all of which have four leveling glides for easy leveling.

UPPER CABINET One of the most convenient features of our overhead cabinets is the method used to mount them. By using a concealed horizontal rail that attaches to the wall, the cabinets hang on the rail for simple, secure installation without the need for wall blocking.

The Brand Behind the Product

Neocase is deeply committed to two things: the quality of its products and the perfecting of your experience as our customer.

Our brand recognition in the industry as a leader in innovation is matched only by our reputation for integrity and resourcefulness. Neocase is founded on the belief that good communication and professionalism should permeate every aspect of your experience as our customer.

From concept to completion, we are with you every step of the way, and for years after the sale. With Neocase, you have a dependable partner that takes as much pride in the success of your project as you do.

Whether you are the user of our fine modular casework, or a designer, architect, specifier or dealer, you can depend on Neocase. Contact us at the earliest possible stage of your next project, and let's explore together how modular casework from Neocase can make a positive difference.
