## Once again, C.I.T.É. collection is awarded with Gold at the NeoCon World Trade Fair - *Furniture System Enhancement* Category

*For immediate release*

**CHICAGO, June 15, 2015** – **Best of NeoCon** has once again crowned C.I.T.É. with a Gold award at the very first hours of the popular exhibition in Chicago. This win is particularly sweet for the Groupe Lacasse design team led by Dominic Aubry.

This reiterates the leadership of Groupe Lacasse in the design and the manufacture of innovative laminate solutions for today's workplaces.

Adapting to current, evolving and emerging needs, the C.I.T.É. collection is more than a furniture system. It is the embodiment of versatility. Brainstorming sessions, project planning, information sharing, individual tasking and conceptualizing: C.I.T.É. lends itself to the configuration of customized workstations providing both the collegiality and privacy required to deliver peak performance at any given time or workspace application.
