QUORUM
MULTICONFERENCE

The new electric height adjustable tables from the **QUORUM MULTICONFERENCE collection** are simply perfect for a multitude of tasks and applications!

In addition to their ergonomic benefits of encouraging active work (sit-to-stand), the extended corner tables are sufficiently spacious to accommodate all the essential day-to-day tools and equipment with no inconvenient seam on the work surface.

Personal height positions are easy to set and quick to restore thanks to the optional digital control keypad with 4 programmable memory settings. Of impeccable and seamless aesthetics, the base columns show no screws or holes at the junction of the telescopic elements; the electric mechanism is fully integrated.
