ARTISTRY™ ROOM DIVIDERS

Acoustic, decorative, and mobile—the freestanding EchoDeco™ Villa Wall™ fits the bill to complete any space. Versatile and functional, the EchoDeco Villa Wall can be hinged together to create quiet huddle spaces, break rooms, waiting rooms and private work areas without incurring costly construction. For an instant reconfiguration, add casters to move walls whenever and wherever needed.

EchoDeco Villa Walls divide space and provide acoustic comfort with a “WOW” factor. Our 2-sided wall features your design differently on each side. One side will feature your cut-in design on top of your base color. The opposite side uses the pop-out pieces from your design to allow the base color to take center stage.

Our 9mm acoustic EchoScape™, with an NRC rating of 0.85, effectively controls noise disruptions by absorbing sound. Available in 19 colors, 6 designs, and 2 frame colors, the design possiblities for your EchoDeco™ Villa Wall are endless. Combine colors and designs to create your signature look.

- Choose your design finish on each side
- Choose from 6 designs and 19 colors
- Framework is constructed using lightweight aluminum extrusion and available in black or silver
- Ships fully assembled, just add your foot option
- Custom designs possible

ROOM DIVIDER

Contemporary Urban Wall room dividers maximize current space while adding style to your office concept. Define shared spaces to create meeting rooms, collaboration huddle spaces, breakrooms, customer or patient waiting rooms, and private work areas without incurring costly construction. The Urban Wall comes in a wide range of sizes, configurations and core material options making it fun and easy to create a custom room divider. Build your Urban Wall by designing each panel, then connect them together to construct the workspace that works for you.

- Framework is constructed using lightweight aluminum extrusion
- All metal parts are anodized or powder coated for an aesthetic and durable finish
- Design your Urban Wall using five core materials in a wide array of rich colors
- Our acoustic core material, EchoScape™ 3/8" (9mm) effectively controls noise disruptions by absorbing sound and is NRC rated at 0.85
- Room divider panels can be hinged together to create 2, 3 or 4-way configurations
- Made in the USA

ECHODECO™ WALL PANELS

Price Effective - January 1, 2022

SET THE TONE IN YOUR WORKSPACE

Improve office acoustics while creating an inspiring environment with EchoDeco Wall Panel cutout designs. An attractive decorative solution that absorbs distracting noise, EchoDeco Wall Panels are a cost-effective treatment to cover walls or divide space. Add a second layer of EchoScape™ in a matching or contrasting color behind your EchoDeco design for maximum noise absorption and a unique look.

Designs are cut into our 3/8" (9mm) or 3/4" (18mm) thick acoustic and sustainable EchoScape™. Designs cut from our 3/8" (9mm) panel can also include a second layer behind the design for a total thickness of 3/4" (18mm).
