Listen.
This is Silen.

Your space to focus

Open offices are great. But it can be hard to find focus and privacy there. Silen's office pods and other privacy solutions will fix that. **Our selection is the world's largest,** too. No wonder so many Fortune 500 companies choose us.

25 years of acoustics research puts us at the vanguard of noise reduction in the office. With human-centric design & sustainable materials, the pods feel simply incredible.

Focus & privacy

Focus without distractions

Open offices can get noisy. Privacy suffers, too. So let's think inside the box. Out there, mental overload. In here, headspace. Silen office pods are quiet, private, and comfortable. They're the kind of places you need to ideate, create, and strategise.

- **Industry-leading two-way noise reduction**
- **Mental-health-centric spaces**
- **Enable focus in the workspace**
- **Deeper human connections**

Industry leading standard

Sustainable versatility

Focus & privacy zones that evolve with you. In minutes. For decades.

Flexible office design adapts to changing needs. Spiff up your workspace with our wide collection of office pods and dividers. Modular, scaleable design means they can be combined and split again. Swappable skins, trims, finishes, and furnishings help keep things fresh and long-lasting. There are sleek wheels, too. Push, to the future and beyond!

- **Evolves with you: lifelong customization & modularity**
- **20+ year lifespan with simple, sustainable design**
- **Marine-plastic textiles and responsibly sourced materials**
- **Plug & play, without tech that grows obsolete**

Modularity
The modular concept enables you to change the pod size whenever you need it. Add modules to create bigger spaces or split larger pods into smaller spaces.

Wheel Away
The Space can easily be relocated around the office. Big wheels, easy to roll. Even on carpet.

Endless Customisation Options
With so many finishing options, your Space will fit right in.

Energy efficiency
Our office pods barely use electricity when on standby and need very little when in active use. Thanks to motion sensors, they keep energy consumption to a minimum.

Replace the skin, not the pod
You can always recolor and re-furbish a Silen pod. With Silen Dynamics, you can simply change the look of your pod by ordering another cover.

Free from aging technology
Where other companies sell units with built-in devices, our pods let you choose which technology to include – and when to replace it.

Designed for wellbeing

Feel good beyond ergonomics

Passable workspace design reduces strain and looks ok. Still, people didn't yearn for the office after Covid. Wellbeing matters. Enjoyment sparks good things. As Churchill said, "We shape our buildings, thereafter they shape us." Smart companies know this. It pays to care about people and how they feel. We design for both.

- **Standard-beating air quality and circulation**
- **Spacious, ergonomic design & safe materials**
- **Optimized for speech and minimal echo**
- **Confirmed by user tests & client feedback**
