Balance 2 Long Board

Description:

Many people prefer to mouse on the same plane as the keyboard instead of below or above it. Symmetry's long board accomodates a keyboard and room for mousing next to it. The other advantage is that the user can easily switch from left to right handed mousing. The Balance 2 mechanism also offers a height gauge, comes a couple inches above the desk, and has auto-tilt with a tilt degree indicator.

Specifications:

PLATFORM

- 9mm thin 27" long mdf tray allows maximum knee clearance
- Integrated mousing surface with gel pad that easily switches from right to left
- 27" Gel palm rest (removable) for maximum ergonomic comfort
- Sliding mouse catcher with cord manager

MECHANISM

- ANSI/HFES, 100-2007 and BIFMA G1-2002 compliant
- Ergonomic, low profile arm and tray head give the arm a sleek, thin design to save space under desk
- 8.88” adjustment range with 2.38” above the track and 6.5” below
- ADA Compliant tilt and height adjustment controls
- Height and tilt indicator incorporated together in an intelligently designed dashboard
- Easy access to tilt control knob
- Concealed hardware and braking mechanism and integrated cable management
- 360° rear swivel
- Designed for disassembly & fully recyclable
- Positive tilt lockout option standard (can be removed in the field)
- 19" storage track with mounting hardware standard
