4 shapes. Endless possibilities.

Meet Nano, our uniquely designed and easy-to-spec modular collection. These four curated, comfortable pieces fit together seamlessly to create whatever shape you need. They can work as standalone pieces or be combined to create thousands of configurations.

Inspired by Geometry

The hexagon-inspired Nano was designed to be the go-to solution for your changing needs. A hexagon, compared to a traditional square or triangle, provides better personal space when configured together. This simple shape empowers the user to spec and design effortlessly. Nano easily handles any seating challenge you throw at it.

Plan for spontaneity

If you're looking for a quick meeting or need a place to ideate, this flexible collection can be easily configured for any need. Create a fun shape by your workspace or arrange a bench sequence along a wall. The rounded edges and modular design mean Nano can work well almost anywhere.

Solid and sleek

Add multi-functional pieces to your space with Nano’s curated selection of table top options ranging from wood laminate to solid surface finishes.

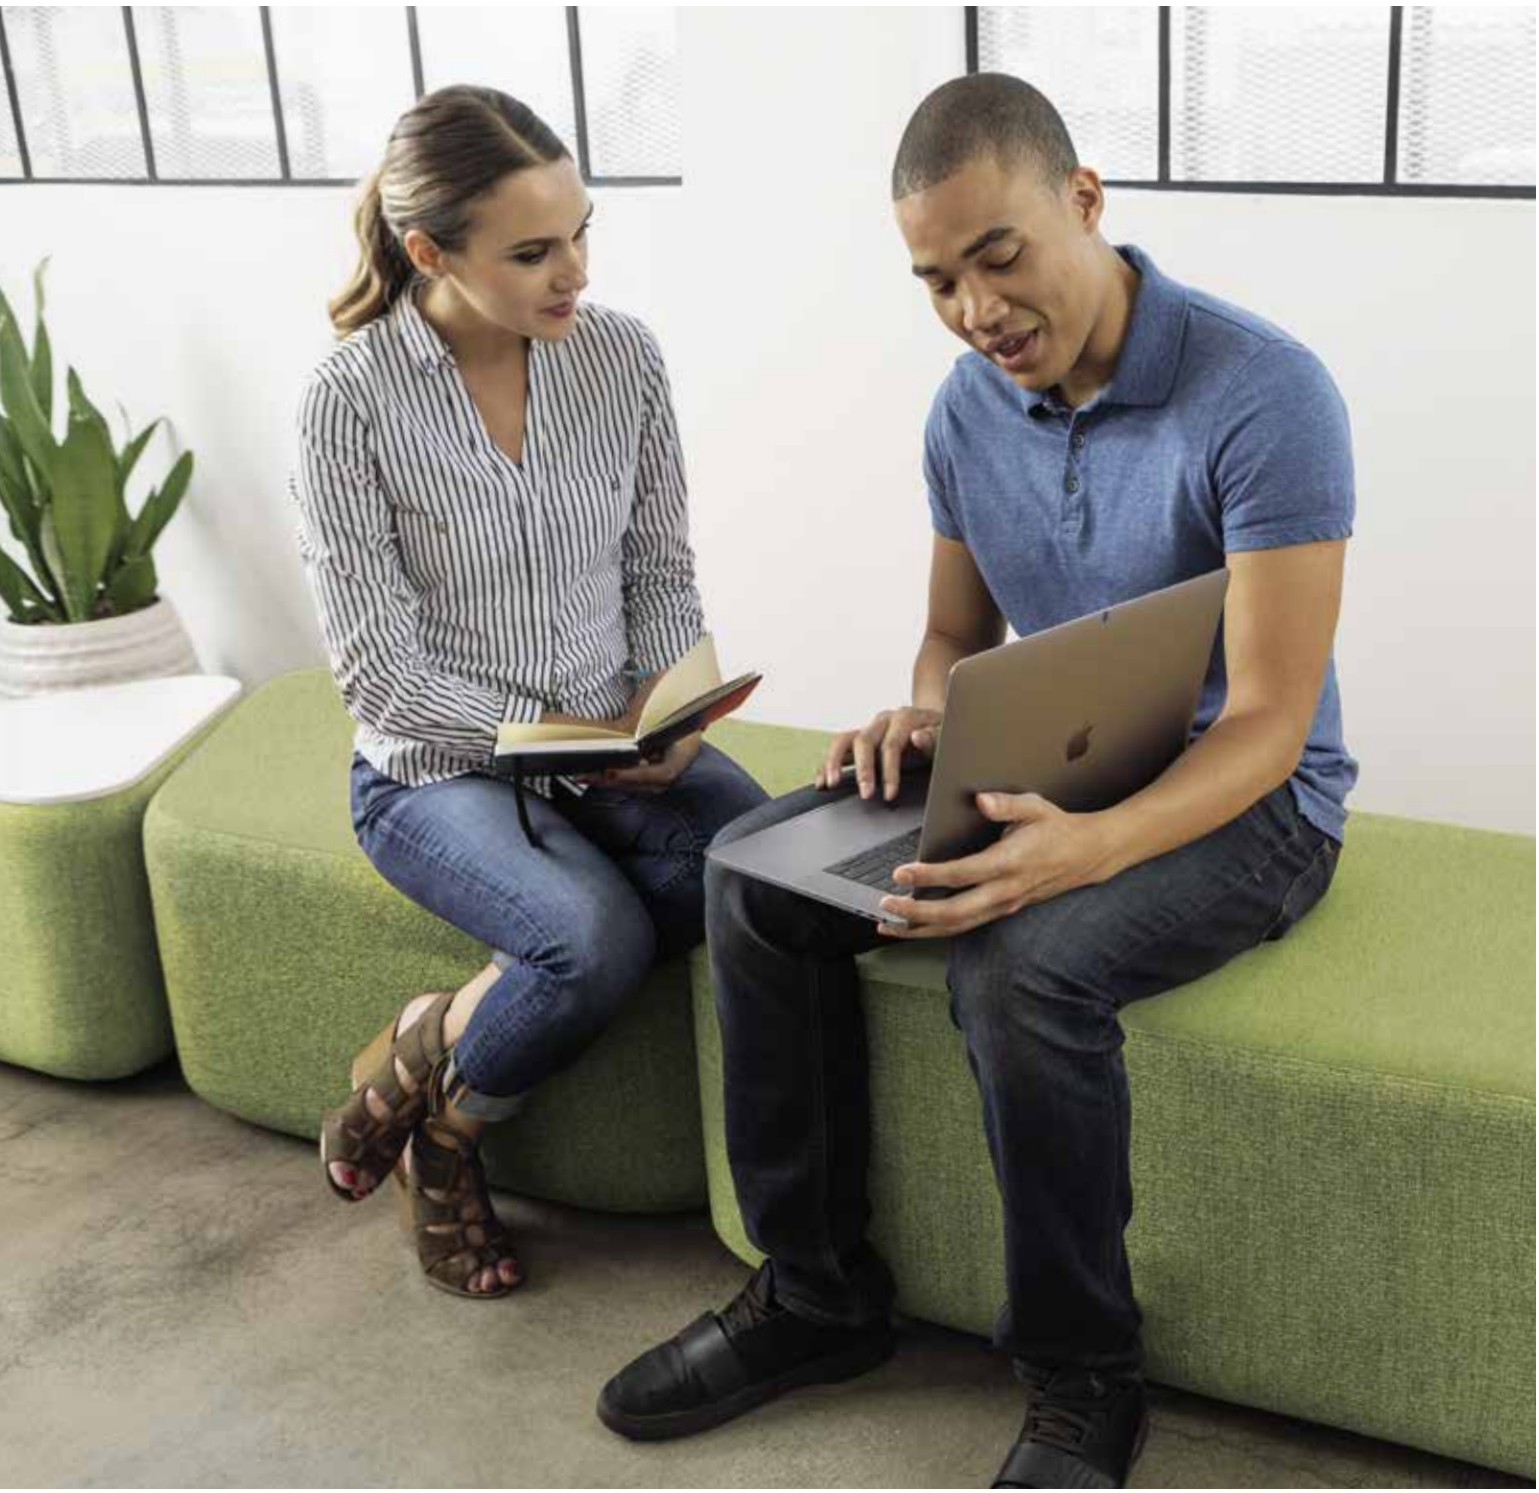

One seat. Two looks.

Can’t choose one fabric? Have both. Optional dual-upholstery on the Nano allows you to combine two textiles for one unique, dimensional look.

Sharply soft

Balance clean, modern lines with supreme comfort. A round edge design eliminates sharp shadows, creating a shape that not only saves space, but is also warm and inviting.

Upscale and easy

Everything about Nano is easy. It's simple to design and configure. Ordering is a breeze with our lounge options in our industry-leading ChairBuilder® tool. Additionally, maintenance is worry-free because it's easy to clean, maintain and replace if it gets damaged.
