## WIT THINTEX:
## Reinventing the Upholstered Chair

What's smart and surprising about Wit™? Besides styling, great textile choices and an unbeatable price, Wit has Thintex™.

Thintex is a new interpretation of the traditional upholstered chair. Thin design and performance materials deliver supreme comfort, durability and a pleasing aesthetic.

### THINTEX TRI-LAYER CONSTRUCTION

Thintex uses a 3-layer construction method that makes Wit the most comfortable – and stylish – high-performance chair in its price range.

1. A design layer of durable, cleanable, vibrant fabric or vinyl covers the outside
2. A comfort layer gives the soft "pillow feel" for all day enjoyment
3. A 1mm thick performance layer of monofilament mesh acts like two inches of foam, providing lasting spring-back and active support for long days of sitting

Traditional upholstered chairs feel thick and doughy. Wit Thintex is thin and light. The suspension mesh on the back provides breathability. The ergonomics of the comfortable S-shaped Wit frame is like a padded hammock as the user's body conforms to the comfort curves.

---

### THINTEX MODELS

Thintex is available on Wit highback and midback task chairs and the midback task stool. Thintex offers all of the same features and options as Wit mesh back including standard adjustable lumbar support.

SitOnIt • Seating™

# Three layers. Singular achievement.

*Wit Thintex Highback*

*Wit Thintex Midback*

**Thintex textiles are bright and vibrant. They're durable, cleanable and available in both fabric and vinyl. For the design layer, specifiers can choose between two SitOnIt Collection carded textiles in the same 12 colors as the Wit mesh back chair:**

- Pop fabric is made of 100% post-consumer recycled polyester with a water-repellant finish. It is green, durable (200,000 DR) and CAL 133 approved.
- Slide vinyl is made of 100% polyvinylchloride. It is antimicrobial durable (100,000 DR) and bleach cleanable!

## THINTEX FEATURES

- Slim, light and airy appearance; contemporary, modern and fun
- "Comfort curve" ergonomics
- Breathable mesh back
- Two SitOnIt Collection carded textiles (fabric or vinyl) in the same 12 colors as the Wit mesh back chair
- The Wit 3-piece lumbar is still fully functional while most upholstered chairs at this price point can't achieve this type of adjustability
- Unique linear stitch pattern typically not seen on upholstered chairs
- Available in CAL 133 fabrics

No other manufacturer can compete with this design and price point. Wit Thintex looks like a chair costing 2-3 times as much. Thintex is available on both midback and highback chairs with standard 2, 5, or 10 day lead times.
