Focus 2.0™

California born and bred

We're a leading manufacturer of commercial solutions in the U.S. — and #1 in task chairs. From tables and lounge to screens and more, we've been the go-to destination for comprehensive, build-to-order solutions for almost 25 years. We combine award-winning design with the fastest lead times around, and our design and planning services can turn product innovation into your space inspiration. We're able to build almost any specification you want, deliver it when you need it, and offer a level of value no one can match. It's all part of our indie California spirit and drive to be the one place you go for any (and every) space.

Updated. Upgraded. Up to any task.

There's a legacy that follows Focus. Some call it classic. Others say it's iconic. It's been one of the industry's best-selling chairs for 10+ years – and it's time we make something great even better.

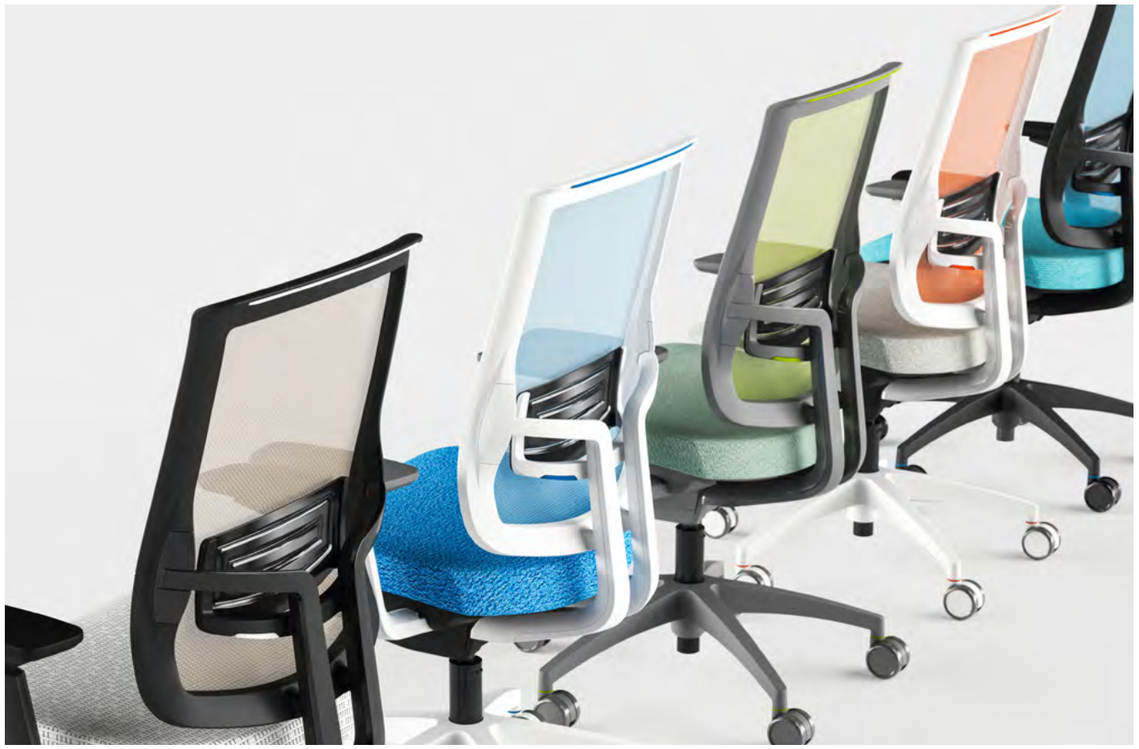

Focus 2.0 is more than a makeover. It's a modernization. It's driving dependable design forward with innovative mesh, enhanced (and expanded) customization, advanced functionality and a slimmer silhouette that offers superior comfort from integrated lumbar support and cutting-edge ergonomics. Focus 2.0 is everything you loved in the first generation and more.

GOOD DESIGN

Focus on color

And do more (with more) to create more. Two new meshes and 12 accent colors in four locations mean expanded ways in which you can color and coordinate so that every Focus 2.0 feels as unique as the personalities who use it.

Go from exciting to exhilarating with enhancements that now come standard. We updated Focus 2.0 with features for today's modern office while looking ahead to the workplace of tomorrow.

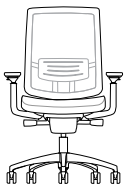

The heart of what matters most

You'll find Focus at the place where comfort, design and everything you value in a smart solution converge. That's how we created an icon and best-selling solution for 10+ years. Its evolution will continue this legacy. Focus 2.0 is reimagined, redefined and ready to inspire a whole new generation.
