Focus®

California born and bred

We’re a leading manufacturer of commercial solutions in the U.S. — and #1 in task chairs. From tables and lounge to screens and more, we’ve been the go-to destination for comprehensive, build-to-order solutions for almost 25 years. We combine award-winning design with the fastest lead times around, and our design and planning services can turn product innovation into your space inspiration. We’re able to build almost any specification you want, deliver it when you need it, and offer a level of value no one can match. It’s all part of our indie California spirit and drive to be the one place you go for any (and every) space.

One big (happy) family

This crowd-pleasing collection has a model for every role—collaboration space, café lounge, private office and more. And whether you need something tall, standard or on the side, the thoughtful design and smart support makes Focus perfect for any task.

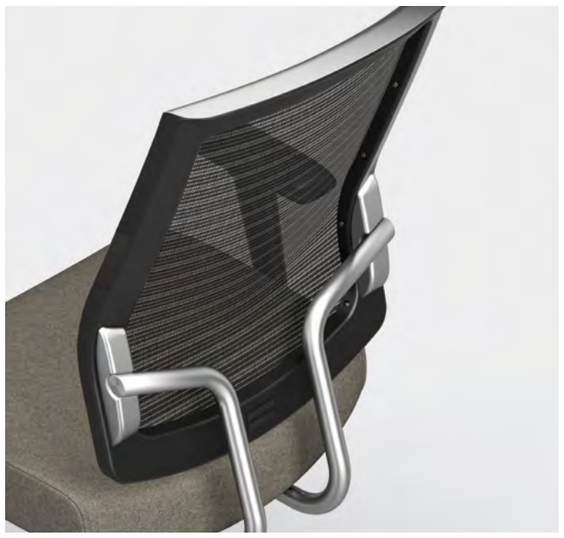

Right behind you

Our signature dual-curve frame takes its cues from modern, industrial design while also reinforcing key points of contact, so your back is optimally supported throughout the day. Plus, a built-in lumbar system helps promote correct posture so that you spend more time working and less time (re)adjusting your seat.

Work is always a bit easier when sitting on a molded foam cushion that features an added layer of thickness for a supportive-yet-plush feel. And the sloped, waterfall edge helps promote proper circulation so you can sit for longer periods.

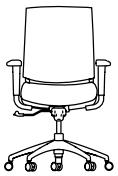

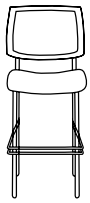

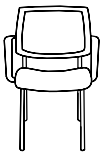

Sit and stay a while

Our Focus multi-purpose side seating collection is lightweight, comfortable and completely customizable. The popular mesh back option offers flexible suspension construction for dynamic lumbar support without the bulk. Translation? It's easy to move in and around — whether you're fidgeting during a lecture or swinging around for an impromptu group think.
