Hexy™

California born and bred

We’re a leading manufacturer of commercial solutions in the U.S. — and #1 in task chairs. From tables and lounge to screens and more, we’ve been the go-to destination for comprehensive, build-to-order solutions for almost 25 years. We combine award-winning design with the fastest lead times around, and our design and planning services can turn product innovation into your space inspiration. We’re able to build almost any specification you want, deliver it when you need it, and offer a level of value no one can match. It’s all part of our indie California spirit and drive to be the one place you go for any (and every) space.

Room for vroom

Hexy is what happens when you let inspiration drive innovation – and engineer ergonomics right into the frame. Midback, highback or stool, it’s the ultimate seating solution for action-packed (and comfort-backed) environments.

Powered by fusion

A hexagon core on Hexy creates natural support so there's no need for external lumbar controls, and the high-performing mesh fuses with an extra-wide backrest as seamlessly as its flowing silhouette (perfect for any space).

A slim pull-handle built into a lightweight frame offers well-designed convenience while adjustable aerodynamic arms and streamlined controls put you in charge of comfort.

Make it go

Hexy gives you everything you need in a super sleek setup — and it all starts with the integrated lumbar support. You can build on the hexagon core with an array of meshes, features and more to propel the look and feel of any environment.
