

HIGHER EDUCATION SOLUTIONS

SitOnIt • Seating®

IDEON®

WHO WE ARE

With the fastest lead time in the industry, SitOnIt Seating® and IDEON® offer high-quality seating that combines award-winning design with intelligent ergonomics. From healthcare to higher education, we've been the go-to destination for built-to-order seating since 1996.

Born and bred in California, all of our key collections are designed in-house and rigorously tested for quality control, strength and durability. We make customization easy—our user-friendly ChairBuilder tool lets you design your dream chair with just a few clicks. With chairs, sofas and stools for every desk, space and environment, the possibilities are endless.

Discover premium seating solutions—at a fraction of the price.

OUR BUILT-TO-ORDER PROMISE

Custom-designed chairs, no waiting. Our lean manufacturing operation means we can ship built-to-order chairs in just 2 days. That means we can build the chair you want—and deliver it when you want it—at a price no one else can match.

FASTEST SHIPPING IN THE INDUSTRY

Choose from 2, 5 or 10-day shipping. We cut lead time, sync orders and avoid off-schedule shipments at a rate our competitors just can't match. From start to finish, we maximize efficiency in every single area—whether it's sourcing and logistics or assembly and production.

SEATING SOLUTIONS 101

Discover customizable, built-to-order options for every space and for every user—whether you're a student, faculty member, on staff or just visiting.

TASK STOOL TEXTILE: Electric Blue Mesh (back), SitOnIt Collection Pop Electric Blue (seat),
NESTER TEXTILE: Apple Mesh (back), SitOnIt Collection Pop Apple (seat)

Movi

The Movi is movement-inspired and collaboration-friendly, making it perfect for any dynamic learning environment. The nester features a caster design and flip-up seat for easy seating, a bleach cleanable mesh back (10:1), clean-out space for easy maintenance, flexing at the hip 14 degrees for enhanced comfort and a movement-friendly back and arm support.

Makerspace

Today's evolving learning environment calls for high-design seating solutions that can keep up with it all. Introducing Movi, the last nester you'll ever need. From brainstorming and informal catch ups to prototyping sessions, Movi is a modern multitasker that can adapt quickly to any makerspace.

Nester

Light Task

Task Stool

TEXTILE: SitOnIt Collection Sugar Candy Corn

Relay

Durable and adaptable to the finish, the Relay fits right into classrooms or makerspaces of all kinds.

Makerspace

Designed for extra comfort and quick transitions, the Relay chair comes in stacking and nesting models for high-volume storage in makerspaces of all sizes. Simply pull up a chair to review blueprints or set up seating for a programming class in a snap -- thanks to durability, a spacious sit and ribbed back support, the Relay chair brings practical solutions to any collaborative, multi-use environment.

Nester

4-Leg Side Chair

Classroom

Effective classrooms mean students and instructors collaborate. They offer interactive learning where everyone is comfortable, safe and at ease. For dynamic and interactive learning spaces, explore seating that can withstand daily wear and tear while still being comfortable.

NOVO TASK CHAIR TEXTILES: Ocean Mesh (back), SitOnIt Collection Horizon Skyline (seat),
INFLEX MULTIPURPOSE CHAIR (WITH TABLET ARM) PLASTIC: Navy

InFlex

Oversized tablet arms accommodate laptops for note-taking and maximize seating capacity. Lightweight InFlex chairs with casters support mobility for team projects. InFlex is a best-selling classroom solution because its flex-back disc system, with 13 degrees of back angle range, offers spine-friendly comfort at a moderate price.

Novo

Novo's customization possibilities -- from frame color to lumbar support and accent to breathable mesh -- mean this chair can blend in with pre-existing designs or create a look that shouts the school colors. Novo is built to deliver comfort and customization to a variety of students, teachers and administrators.

Novo Task Chair

InFlex 4-Leg Chair (with Tablet Arm)

Classroom

Great classrooms let students and instructors collaborate. They are interactive learning environments where everyone feels comfortable and supported. A sturdy chair that's still easy to move can help foster a more interactive learning environment, allowing students and instructors to collaborate naturally.

PLASTIC: Apple

ARC Technology®
(Active Rebound Control)

Rio

All Rio® models feature our patented Active Rebound Control (ARC) Technology®—a durable, weight-assisted flex mechanism that has been re-engineered to allow for better comfort and movement. The wire rod side chair stacks 6 on the floor and 15 on the optional cart, making it a great option for multi-use spaces that require quick set-ups and breakdowns.

4-Leg Chair (with Tablet Arm)

Wire Rod

4-Leg Side Chair

30" Bar Stool

Media/ Computer Lab

Students spend hours in the media lab, creating projects on the latest technology. From art and architecture to film and engineering, computer labs need to foster creativity, innovation and research for a diverse group of users.

TEXTILE: Momentum Odyssey Dijon, **PLASTIC:** Sterling

InFlex

Designed by Giancarlo Piretti, the versatile InFlex task chair with innovative flex-back support is ideal for media and computer labs. Choose from multiple plastic shell colors, frame finishes and textiles to create a customized look for your space.

4-Leg Side Chair

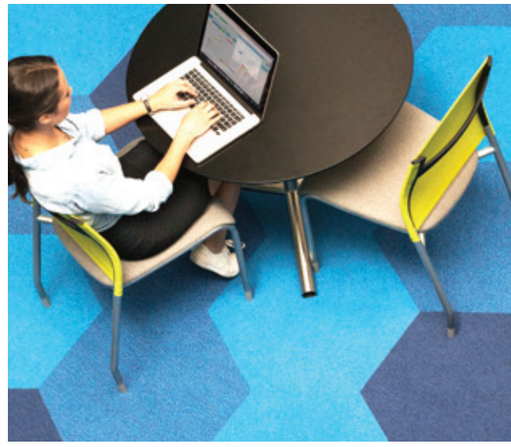

Light Task Chair

Task Stool

Media/ Computer Lab

These days, getting hands-on experience using the latest technology is a given for most students, no matter what the area of study. From art to engineering, labs for all departments need to be spaces that facilitate creativity, innovation and originality.

TEXTILES: Apple Mesh (back), Momentum Tradition Sprout (seat)

Wit

Adjustable lumbar support and height adjustable arms make the Wit collection well suited for lab environments. Specify Wit with mesh back or Wit Thintex™ back; both are comfortable and ergonomic. A pull handle for easy mobility and 12 mesh, fabric or vinyl color choices are unexpected standard features given the surprisingly low price of the Wit collection.

Mesh Midback Task

Highback Mesh Task

Lecture Halls

General purpose and divisible rooms must be flexible to accommodate a wide range of subjects and teaching styles, and support collaborative work.

FOCUS SIDE TEXTILES: Black Mesh (back), Momentum Tradition Theater (seat)

Focus Side

The Focus Side combines elegant design and remarkable comfort that stands out in an interactive learning environment. Integrated lumbar support and a molded waterfall seat provide supreme comfort for longer periods of time. Add arms, casters or tablet arms to create the perfect chair for a seminar room or lecture hall.

Relay

The upholstered Relay nester is a comfortable sit for a lecture, seminar or event. Relay features a ribbed back for support, optional curved arms and can be easily ganged, stacked and transported. With a simple flip of its seat, Relay quickly transforms for compact storage.

PLASTIC: Tangerine

Cafeteria/ Breakroom

High-traffic areas like multipurpose dining and break areas should have seating that's easy on the eyes—and easy to move around. Discover slim, lightweight options that are stackable, durable and easy to clean.

Lumin

Lumin™ is lightweight and stackable, and the contoured, flexible back is perforated for breathability. Circle Lumin up for group work, arrange at angles for testing or simply stack them to clear an open space. Add the optional tablet arm for extra utility and a more traditional classroom look.

4-Leg Side Chair

Wire Rod

30" Bar Stool

PLASTIC: Lemon

Rowdy

Crafted from a single shell for a simple modern look, our Rowdy is multipurpose seating that's lightweight, sturdy and super stackable (up to 40 on a cart!). With a cut-out handle for easy mobility, the Rowdy is ideal for high-traffic areas like breakrooms and cafeterias. The slender shell features a ribbed back for extra support.

Wire Rod

Wire Rod - Upholstered Seat

Cafeteria/ Breakroom

Multi-use dining areas may serve staff and students by day and host receptions or parties by night. Therefore, the furnishings need to address capacity constraints and maximize square footage. Chairs that are light, stackable and durable make it easy to repurpose the area quickly without compromising functionality, space and design requirements.

Residence Halls/ Common Areas

Residence halls play an important role in college selection. Students and parents alike report that the state of dormitories and other common areas is a big factor when making their final decision.

TEXTILES: Maharam Urban Pool

IDEON Composium

Composium is where durability meets style. Its steel-rail construction withstands heavy usage in tough environments while a myriad of style options makes it a versatile option for common areas of all shapes and sizes.

Library

Libraries have transformed from mere book access and storage to an interactive and collaborative learning space against a technological backdrop. Today's libraries require stylish seating solutions to successfully transform facilities into flexible spaces that encourage users to learn around the clock.

FREELANCE SIDE CHAIR TEXTILE: Maharam Plait Sequoia
IDEON ARIOSO TEXTILE: SitOnIt Sugar Candy Corn

IDEON Arioso

Arioso is a complete seating solution for spaces that require both durability and high design. Choose from sofas, settees, club chairs and ottomans.

Freelance

The Freelance collection is perfect for a 24/7 student center. With an easy clean-out space between seat and back and a ton of textiles to choose from, it's ideal for high-traffic areas that need comfortable, easy-maintenance seating.

ReAlign

Contemporary tailored lines, a thin profile and enduring comfort make ReAlign the right task chair for library staff. With seven control mechanisms and five arm styles to choose from, ReAlign can solve almost any office requirement.

- Club chair and ottoman
- Armless, wood arm and upholstered arm models
- Flexibility to create dynamic modular configurations
- 10 foot styles
- Tablet, pull handle and magazine rack/cupholder options

(page 24)

PROJECT SPOTLIGHTS

ALABAMA STATE UNIVERSITY

Alabama State University included seating as part of a 2012 building renovation project. They wanted comfort plus a variety of mech combinations and back options to accommodate executive, conference and staff seating as well as a solution for student dining areas.

For the administrative areas, they chose Focus Work highback and midback. Volley was perfect for the high use/ high abuse dining area. The customer liked the option to use either the 4-leg or the sled base, and after a year of researching fabric was pleased to find that Momentum Silica Medal was already graded-in.

XAVIER UNIVERSITY

Xavier University sought to furnish its new residence hall lobby and lounge areas with seating that would set the stage for dynamic interaction among students and faculty.

A key factor in the decision-making process was field-replaceable components. The ability to replace just the damaged part offers a great time savings and economical advantage. Xavier simply orders the IDEON part and the school's maintenance team replaces the component in minutes. By eliminating the need to reconstruct a complete chair, we ensure their high-quality, sustainable seating is consistently available.

CALIFORNIA STATE UNIVERSITY, FULLERTON

California State University, Fullerton needed attractive yet durable seating for their largest-ever housing and dining construction project. The dormitory provides housing for 1,900 students – more than doubling the campus' residential population – while the Gastronome, a 565-seat contemporary dining facility, offers a diverse eatery.

CSUF chose IDEON because of our budget-friendly seating solutions, as well as its prior selection of and pleasant experience with SitOnIt Seating's Focus Work. In addition, the materials, COM ability and Lifetime Warranty all proved to be large factors in the university's decision to purchase from the IDEON Composium Collection.

WHY CHOOSE US?

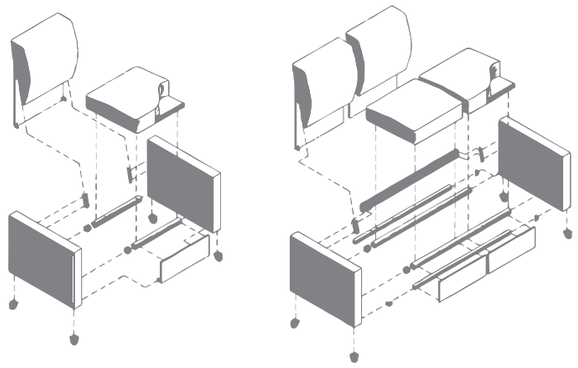

TESTED & APPROVED

We put ourselves through the ringer (so you don't have to). Rest assured that our products have been tested for quality control, strength and durability.

ANSI/BIFMA CERTIFIED
SitOnIt Seating and IDEON are members of the Business and Institutional Furniture Manufacturer's Association (BIFMA). Tests developed by BIFMA are approved by the American National Standards Institute (ANSI) to determine the strength and durability of seating. Although testing is not a warranty or guarantee, our products meet or exceed BIFMA and ANSI standards.

HEAVYWEIGHT CHAMPIONS
We use rigorous standards that test for arm and leg strength, overall load and impact. Our Heavy Duty chairs have a 350 lb. weight capacity and bariatric models are rated to 500 lbs. and 1, 000 lbs. Bariatric models are available in 30" and 42" widths with additional seat foam, steel reinforcement and extra large casters with 25% more weight capacity. IDEON club chairs, settees and sofas are rated to 250, 500 and 750 lbs. respectively.

BUILT TO LAST
The unique IDEON steel rail system* creates a robust, durable understructure that withstands even the toughest environments. The arms are anchored by a high performance molded joint system that provides long-lasting stability. The modular assembly of rails and components makes field replacement of our components simple, ultimately extending the life of the product.

Not applicable for the Visit Modular collection.

SUSTAINABLE DESIGN

We make it easy to go green. Design an eco-friendly room from the ground up or upgrade an existing space to meet the latest environmental standards.

LEED CERTIFIED
Earn points toward LEED certification thanks to our US manufacturing location and our use of recycled materials where possible.

GREENGUARD CERTIFIED
All SitOnIt Seating and IDEON products met the rigorous criteria required by Greenguard Gold in accordance with the Collaborative for High Performance Schools.

LEVEL CERTIFIED
We've worked to achieve BIFMA level® certification for all SitOnIt Seating and IDEON seating products.

WE DID OUR HOMEWORK
Download detailed documents that break down the percentage of recycling content, manufacturing process and indoor air emissions for every chair we make.

ENDLESS CUSTOM OPTIONS

Developed by world-renowned designers and engineers, all of our collections are customizable from top to bottom.

FIND YOUR HUE
With thousands of textiles, COM options, frame accents and finishes to choose from, you can mix and match to your heart's content —whether you're enhancing school colors or just in the mood to be creative!

PERFECTION IS POSSIBLE
Our accurate fabric matching ensures that patterns will line up perfectly—even with replacement upholstery parts ordered years later!

SAFETY FIRST
We make it easy for designers and buyers to put safety first. Since fire safety is a top priority for many facilities, we offer CAL 133 models for every collection, COM fabric approval service and a 10-day turnaround all at an extremely competitive price point.

SMART SEATING SOLUTIONS

Good educators know that everyone learns differently—and part of teaching is creating a learning environment that's optimized for high performance. Whether you want students engaged and comfortable during a lecture or easily mobile while working in groups, SitOnIt Seating® and IDEON® products have got you covered.

Discover an ultra-customizable selection of built-to-order chairs, sofas and stools for any and every space—at a fraction of the price.

For the name and number of your local representative, call, email or visit our website.
