Geometry in motion

InFlex®

SitOnIt • Seating®

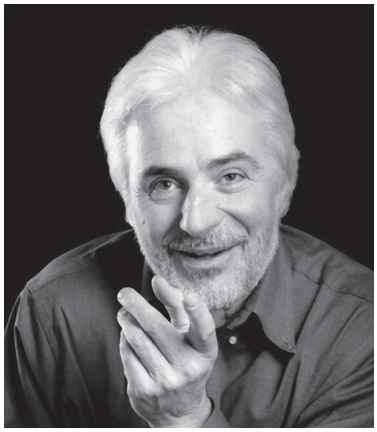

California born and bred

For 20+ years, we've been the go-to destination for built-to-order seating because we combine award-winning design with the fastest lead times around. Customizing is oh-so-easy with our industry-leading visualization tool – ChairBuilder™. We can build almost any specification you want, deliver it when you need it and offer a price no one can match. It's all part of our indie California spirit and drive to help you innovate and inspire.

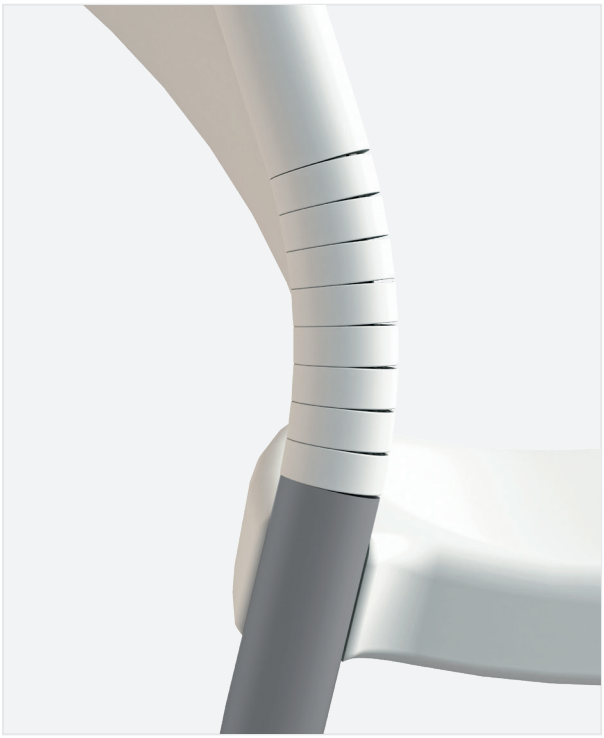

Style that stacks up

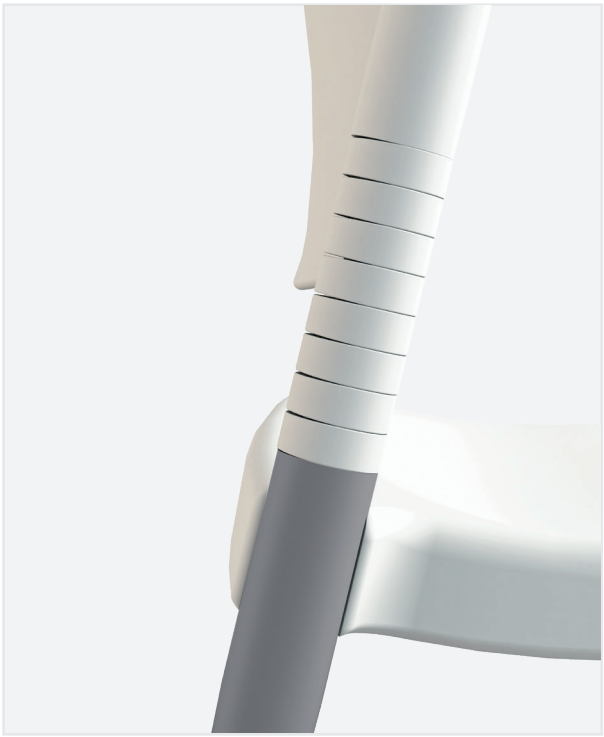

Designed by Giancarlo Piretti, this multipurpose, flex-back stacking chair offers contemporary styling and spine-friendly comfort—at an affordable price. Versatile InFlex comes in both plastic stacking side models and upholstered side, task and stool versions.

GIANCARLO PIRETTI

Piretti's museum exhibitions and numerous patents around the world reflect both his artistic passion and drive to innovate. Our InFlex, simultaneously elegant and ergonomic, echoes Piretti's belief that "art and design should be enjoyed by everybody, in everyday settings."

When it comes to natural back support, the InFlex flex-back motion delivers the most evolved ergonomic solution available today. When the user reclines, the stacked disc system and steelspring rods work in unison, inspired by the movement of the spinal column to offer personalized support and comfort.

Form meets flex

The contemporary styling of this Piretti chair emulates the human spine. Its innovative flex-back disc system, with 13 degrees of back angle range, is as clever as it is comfortable.

High-traffic friendly

Ideal for cafeterias and high-traffic areas, the InFlex is lightweight, durable and easy-to-clean thanks to its convenient, clean-out back.

Features
