Rio®

California born and bred

We’re a leading manufacturer of commercial solutions in the U.S. — and #1 in task chairs. From tables and lounge to screens and more, we’ve been the go-to destination for comprehensive, build-to-order solutions for almost 25 years. We combine award-winning design with the fastest lead times around, and our design and planning services can turn product innovation into your space inspiration. We’re able to build almost any specification you want, deliver it when you need it, and offer a level of value no one can match. It’s all part of our indie California spirit and drive to be the one place you go for any (and every) space.

The flex effect

What makes a plastic chair award-winning? Supreme flexibility—in design and application. Rio features a responsive backrest that reclines when you do and a breadth of customization options that offer anything you need for your space.

From zero to 20 (degrees of flex) in seconds

Active Rebound Control (ARC) Technology® provides ultra-responsive comfort, supporting up to 20 degrees of flex when you lean back. This makes it easy to sit down and settle in without constant shifting for comfort.

Driven by success

Combined with colors that move and specs that flex to fit any environment, it's easy to see why the award-winning Rio finishes first. From stackable side chairs to light task stools, this is a collection that features the kind of design technology and customization that stands out—even when blending in.
