RIO®

SitOnIt • Seating®

DESIGN THAT RESPONDS TO YOU.

The Do-It-All Chair

Discover a line of models engineered for maximum comfort, flexibility and versatility.

- **A slim, flexible shell**
- **A versatile line of 5 models**
- **A variety of 14 colors**

The Rio® is a family of multipurpose seating featuring our patented Active Rebound Control (ARC®) Technology - a performance-minded flexor insert that supports a wide range of motion (20 full degrees to be exact) and responds precisely to the amount of weight pressed against it. Experience personalized flexibility that moves with you.

Transform the Rio® to be exactly what you need it to be, whether it's a light task chair you can swing around for a quick meeting or a multi-tasking tablet arm seat for easy note taking. It's no wonder that our Rio is a popular choice for both conference rooms and breakrooms - and everything in between.

RIO®
