SIT-TO-STAND

# SOLACE

For more than 25 years, Workrite Ergonomics has been helping organizations create happier, healthier and more productive workplaces. We take issues like neck and back pain, blurred vision, and headaches caused by extended computer use seriously, and are committed to helping organizations fight these increasingly common problems.

Workrite's Solace series of products was specifically designed to address these issues. The Solace family, which includes our new Solace 2, Solace Single Surface and Solace Desk Top, has evolved to include a range of solutions designed to address all your Sit-to-Stand needs. It now includes options that offer the greatest level of adjustability and desk space utilization, delivering ergonomic solutions for virtually any budget.

The Solace family of products features simple and quick installation designed to save organizations both time and money and has the flexibility to accommodate a wide variety of users, and deliver stable, customizable workspaces that increase comfort and productivity.

## SOLACE 2: SUPERIOR RANGE ENSURES ERGONOMIC COMFORT

Solace 2 promotes health and wellness by providing the core ergonomic benefits associated with height adjustable desks, monitor arms, and keyboard platforms. The all-in-one ergonomic workstation offers a quick & economical method to enhance user comfort as well as overall productivity. With its broad range of lift, rotation and tilt, Solace 2 has the flexibility to accommodate a wide variety of users and applications.

### Solace 2 Arm:

The Solace 2 pneumatic strut allows the arm to effortlessly lift the keyboard and monitor(s) between the seated and standing positions. The industry leading keyboard platform height range makes Solace an ideal solution for multi-user environments.

- Designed to meet ANSI/BIFMA & HFES standards
- Keyboard Platform, Secondary Surface & Mount travel in unison, transitioning between seated and standing height effortlessly
- Stows down to just 16 " to quickly and easily access desktop workspace

*Standing position*

*Seated position*

*Stowed position*

### Solace 2 Independent Keyboard Platforms:

A choice of two popular ergonomic keyboard platforms and the ability to independently raise or lower and tilt the keyboard platform to the ideal height is the key difference of Solace 2.

- Standard Keyboard Platform features UB182-25 Platform
- Premium Keyboard Platform features Revo UB2100FT25 Platform
- 3.75" of independent keyboard platform adjustment
- Folds up 90° for optimal storage

*Standard Platform*

*Premium Platform*

### Solace 2 Independent Monitor Adjustment

To create a uniquely personalized configuration, Solace 2 incorporates the ability to fine-tune independent adjustments to your monitor. The counter balance technology creates a simple to use, knob free experience so the user can adjust monitor height with minimal effort.

- Supports one 6.5–24.5 lb. monitor
- 9.5" of independent height adjustment
- Standard VESA (75 mm & 100 mm)
- Quick Release Adaptor included for faster monitor installation

### Optional Dual Monitor Adaptor:

- Supports two monitors 1.25–10.25 lb. each and up to 22" wide

## SOLACE SINGLE: SIT-STAND BENEFITS AT A VALUE PRICE

The Solace Single will allow users to easily transform their existing desk to a sit-stand workstation. The Solace Single uses a gas assist counter balanced arm to raise and lower the single surface workstation through 18.5" of smooth acting height adjustment with industry leading stability. To maximize the use of the desk surface, the work surface can also be swung to the side when not in use. The Solace Single will complement every working environment and provide an ergonomic workstation at a value price.

### Solace Single Arm:

- Height adjustment range of 18.5"
- A large adjustment range allows most users to experience the benefits of a sit-stand workstation
- Accommodates a wide range of technology requirements with balanced functionality

*Standing position*

*Seated position*

### Solace Single Independent Monitor Adjustment

The Solace Single also incorporates the ability to fine-tune independent adjustments to your monitor. The user can adjust monitor pivot, tilt and height with minimal effort thanks to the independently pivoting monitor tower and monitor height adjustment knob.

- Supports one 6–24 lb. monitor
- 6.3" of independent height adjustment
- Standard VESA (75 mm & 100 mm)
- Quick Release Adaptor included for faster monitor installation

### Optional Dual Monitor Adaptor:

- Supports two monitors 1–10 lb. each and up to 22" wide

## SOLACE DESKTOP: EASY, STABLE AND DURABLE SIT STAND CONVERTER

Quickly and economically convert an existing desk to a smooth and effortless sit-stand workstation. Solace Desktop ships fully assembled making it the ideal retrofit solution. The compact footprint of the Solace Desktop, easily fits onto a 24" deep desk with room for personal equipment. The large primary work surface includes a grommet for cable management and can accommodate an added Workrite Monitor Arm or two 24" monitors. The wide lifting range and independent keyboard surface ensures that users can easily set Solace Desktop to their ideal ergonomic position. Solace Desktop is strong enough to support users technology requirements, yet light enough for simple installation and moving from desk-to-desk.

- Dual worksurface with independent keyboard surface
- 20° Keyboard tilt (+10°/-10°)
- 35 lb. lifting capacity
- 13.8" lifting range, 20" above desktop

*Standing position*

*Seated position*
