JIBE
monitor arms

Space Saving Overlap Arm Design
JIBE's unique arm design allows arms to be fully pushed back in while keeping monitors seamlessly positioned side by side

Adjustable Spring Gauge
Use an Allen wrench to fine tune the spring tension of JIBE monitor arm to perfectly counterbalance any monitor weighing between 5–20 lb

Optional Powered USB Base
Bring power to your JIBE monitor arm base by integrating two USB 3.0 cables

Detachable VESA Plate
Allows for quick and simple monitor installation and removal

180 Degree Pivot Limiter
Locks out the rotation of the arm prevention collisions with walls and panels
